

Great Lengths®

*Bridal
Collection*

LUXURY • OPULENCE • SOPHISTICATION

WHAT IS GREAT LENGTHS?

Great Lengths hair extensions are made from 100% human hair which has never been chemically treated or bleached. Our hair is ethically sourced from temples in India and goes through our exclusive treatment process that preserves the hair's natural integrity. This process ensures that the colour of Great Lengths hair never fades and the soft elegant feel of the hair will remain months after you had them put in.

Renowned as being the 'Rolls Royce' of hair extensions, Great Lengths can give you the freedom to transform your hair into fuller, thicker, longer locks that look and feel completely natural. Whether you use it for added length, volume, fade-free highlights or texture, Great Lengths will give you the healthy lustrous locks to help create the perfect hair you crave on your special day.

On your wedding day,
transform yourself with the
long, voluminous locks
you've always
dreamed of.

FREQUENTLY ASKED QUESTIONS

2-3 WEEKS PRIOR TO YOUR WEDDING DAY

WILL MY GREAT LENGTHS BE TOO NOTICEABLE?

Great Lengths is available in fifty-seven different colours and is precisely matched to your natural hair colour. With expert application, Great Lengths blend so perfectly that not even your fiancé will be able to distinguish them from your own hair.

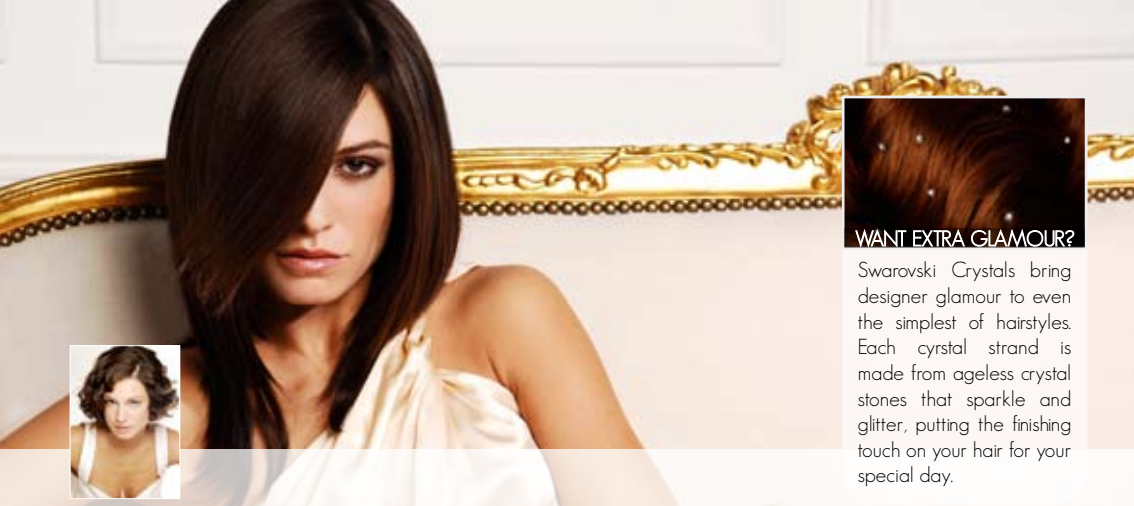

WHEN IS THE BEST TIME FOR ME TO GET EXTENSIONS?

We recommend that you visit an exclusive Great Lengths Certified Salon at least two weeks prior to your wedding day for an initial consultation. This will give enough time to prepare the ideal extension type to suit you and even trial your chosen hairstyle with extensions before your big day.

ON YOUR WEDDING DAY

I WANT TO HAVE AN UPDO, WILL THE EXTENSIONS SHOW THROUGH?

Our extensions are applied in small sectioned strands and not large wefts or clip-ins, eliminating the visible bump that other extensions create. Whether you are aiming for a casual, modern or traditional look, Great Length's allows you the freedom to style the hair as if it were your own.

WANT EXTRA GLAMOUR?

Swarovski Crystals bring designer glamour to even the simplest of hairstyles. Each crystal strand is made from ageless crystal stones that sparkle and glitter, putting the finishing touch on your hair for your special day.

HAPPILY EVER AFTER WITH GREAT LENGTHS

ARE THEY EASY TO MAINTAIN?

Great Lengths are almost as easy to maintain as your natural hair. So if you are going on a tropical honeymoon, you can wear your hair up, down, style and even swim with them. Use Great Lengths Aftercare products for longer lasting results.

HOW LONG WILL THE HAIR LAST?

With regular maintenance, your extensions will last up to six months. Because our hair is never exposed to harmful chemicals, your extensions will keep the same shine and feel as the day you first got them.

WILL GREAT LENGTHS DAMAGE MY HAIR?

No. When applied by a trained Certified Technician, Great Lengths will not damage your hair. The hair strands are applied using a patented keratin bond that mimics human hair and is simply moulded around your hair.

Unlike other extensions that are attached with synthetic glues, waxes and clamps, the protein bond in Great Lengths is easily removed with our exclusive Removal Gel by a Certified Technician causing no damage to your natural hair.
